cortex: GO Biological Process overrepresentation
Upregulated genes (n=650)
protein folding (28/650)
leukocyte activation (45/650)
protein refolding (8/650)
defense response to other organism (39/650)
cytokine-mediated signaling pathway (29/650)
positive regulation of cell development (42/650)
positive regulation of myeloid cell differentiation (15/650)
response to unfolded protein (15/650)
defense response to symbiont (37/650)
response to peptide hormone (35/650)
